

ORDINANCE

AMENDING THE PERMITS AND FEE SCHEDULES OF THE CITY BUILDING REGULATIONS

CITY OF NASHUA

In the Year Two Thousand and Seven

The City of Nashua ordains that Chapter 6 "Building Regulations", Article III "Fees", Section 6-21 "Permits and fee schedules" of the Nashua Revised Ordinances, as amended, be further amended by deleting the struck-through language and adding the new language in underline as follows:

"ARTICLE III. FEES

Sec. 6-21. Permits and fee schedules.

(a) A permit shall not be valid until the prescribed fees have been paid and the permit issued. No permit to begin work for new construction, alteration, removal, demolition or other building operation shall be issued until the fees prescribed in this section have been paid to the department of building safety, nor shall an amendment to a permit necessitating an additional fee because of an increase in the estimated cost or scope of work involved be approved until the additional fee has been paid.

Where a permit has either been revoked, or a project discontinued or abandoned within six (6) months of the issuance of such permit, such permit may be returned to the building official for cancellation. One-half (1/2) of the permit fee shall be refunded by the city treasurer on certificate of the building official, except all penalties that may have been imposed on the permit held under the requirements of this chapter shall first be collected. If a project is abandoned without notice being made to the code official before a six-month interval has elapsed since the date such permit was issued, no refund shall be made. Residential or nonresidential use shall be in accordance with the intent of the Building Code of the City of Nashua, New Hampshire.

The fees for permits shall be charged as follows: The total amount of the permit shall be rounded to the nearest dollar (drop the total amount due under fifty cents (\$0.50) and increase the total amount due from fifty cents (\$0.50) to ninety-nine cents (\$0.99) to the next whole dollar).

(b) The board of aldermen may, at its option, waive or reimburse, as the case may be, payment of fees payable under this section, in whole or in part, to the extent of the value of municipal public improvements and/or land dedication, which an applicant obligates itself to make, over and above impact fees and the applicant's fair share of off-site improvements imposed as a condition of site plan or subdivision approval.

BUILDING PERMIT FEE SCHEDULE

(1) A nonrefundable application processing fee shall be paid at the time of filing of any application:

Building permit

\$ 25.00

(2) New buildings, additions, alterations, mobile homes, in-ground swimming pools, basements, connecting structures, future expansion areas and areas capable of being used as living or occupiable space shall be included to calculate aggregate floor area.

Residential (per square foot of area affected) Commercial (per square foot of area affected) .1011 .1920

(3) Structures designed and certified to LEED standards shall be eligible for the following reduction in their building permit fee:

LEED standard certification	5%
LEED silver certification	10%
LEED gold certification	15%
LEED platinum certification	20%

(34) Alterations, repairs, fire damage

Residential (per square foot of area affected) $.05\underline{06}$ Commercial (per square foot of area affected) $.10\underline{11}$

(4<u>5</u>) Additional plan review for minor modifications of previously approved drawings, including commercial tenant fit-up:

Residential (per square foot of area affected)

Commercial (per square foot of area affected)

When in the building official's opinion the nature of the work is not related to floor area, the permit fee may be based on construction cost of .0056 (fivesix mills) per dollar

(56) Moving a building from lot to lot

440155.00
